

This presentation and its accompanying materials (collectively, the "Presentation") have been prepared by **Kwick Forensic Solutions Limited** ("Kwick," "the Company," or "we") for informational and discussion purposes only. This Presentation does not constitute an offer to sell or solicitation of an offer to purchase any securities, investment advice, or recommendation, nor should it be relied upon as the basis for any investment decision or contractual commitment. Any securities offering by the Company will be made exclusively through formal offering documents containing complete information about the Company, its business, and associated risks.

While the information contained herein has been compiled from sources the Company believes to be reliable, the Company makes no representations or warranties, express or implied, regarding the accuracy, completeness, or fairness of the information presented. This Presentation may not include all material information concerning the Company, and any reliance on this information is entirely at the recipient's own risk. The Company expressly disclaims all liability for any errors, omissions, or inaccuracies contained herein.

This Presentation contains forward-looking statements concerning the Company's business prospects, market opportunities, and strategic outlook based on current expectations and assumptions. These statements are subject to significant risks and uncertainties, and actual results may differ materially from those expressed or implied. Various factors may cause actual outcomes to vary, including economic conditions in India and internationally, industry trends and competitive dynamics, execution of business strategies, technological developments, revenue variability, market acceptance, regulatory changes, and other business risks. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Any forward-looking statements, projections, or opinions attributed to third parties included in this Presentation are not endorsed by the Company, and the Company assumes no responsibility for their accuracy or reliability. By reviewing this Presentation, recipients acknowledge that they have read, understood, and agree to be bound by the terms of this disclaimer.

COMPANY OVERVIEW

Founded in 2005, Kwick Forensic Solutions Limited is a Chennai, Tamil Nadu-based **provider of integrated forensic science, digital investigation, and evidence management solutions.** The Company transitioned from a software development firm to a specialized forensic solutions provider, with its journey rooted in the development of **India's Interactive Crime Scene Simulator, supported by the Ministry of Science & Technology, the Directorate of Forensic Science, and TIFAC.**

Kwick operates R&D and product development facilities in Chennai, focusing on indigenous forensic technologies under the **'Make in India'** initiative, while maintaining partnerships with leading global OEMs and leveraging its **DSIR-recognized R&D capabilities.**

The Company has established a **R&D Center & Private Forensic Lab Facility** as a Proof of Concept to demonstrate its proposed laboratory infrastructure and forensic capabilities to government authorities, forensic officials, and prospective customers. The facility is intended solely for demonstration purposes and is not engaged in commercial sample processing.

Its solutions are trusted by **Police Departments, Forensic Science Laboratories, Fingerprint Bureaus, Crime Investigation Agencies, Training Academies, and Educational Institutions,** supported by globally recognized quality certifications and strong technical expertise.

From Evidence Collection to Court-Admissible Documentation

BUSINESS OVERVIEW

Forensic Products

Forensic Science & Physical Evidence Solutions (37%)

Comprehensive range of forensic tools, kits, handheld devices, and controlled-environment chambers including in-house developed solutions like

- Kwick Vision Pro
- Multispectral Tablet
- Optical Comparator
- Fuming Chambers

Cyber & Digital Forensics (33%)

Tools and software for data extraction, preservation, and analysis in cyber and digital forensic with our Falcon Neo-2 Forensic Imager, Write Blocker and Detego Field Triage Kit with Ballistic Imager products

DNA Forensics (11%)

- End-to-end DNA evidence collection and analysis solutions.
- **Products include:**
 - RapidHIT™ ID System – on-site DNA profiling in <90 minutes.
 - SmallPond™ DNA Database Software – secure matching and storage platform.

Mobile Forensic Vans (10%)

- Fully equipped forensic vans and mobile labs for on-site investigation.
- 25 Mobile CSI Vehicles Delivered.

Services

Services – Rental & AMC (9%)

- Hand Held X-Ray System (for on-site contraband and liquor detection) leased and sub-leased to government clients
- 24x7 operational support
- AMC & After-Sales Support to ensure uptime and client satisfaction

Note: Revenue contribution percentages are based on the Company's total revenue and reflect the relative share of each business segment in FY26.

Genetic Analyser

DSIR-recognized R&D capabilities driving indigenous forensic innovation under the **Make in India** initiative.

End-to-end development and manufacturing of reliable, high-performance forensic solutions in India.

Kwick – Vision Pro

Advanced forensic imaging system for capturing and enhancing latent fingerprints, footwear impressions, and trace evidence using specialized light sources.

Kwick Lite-Pro

Portable forensic light source for body fluid detection, document examination, handwriting analysis, and authenticity verification of security features and seals.

Digital Optical Comparator

Digital fingerprint comparison and analysis platform for examining latent prints and trace evidence, including fibres, glass fragments, soil, and other forensic materials.

Laboratory Chambers

Cyanoacrylate fuming

Enhanced latent fingerprint detection on non-porous forensic evidence.

Portable Fuming Chamber Kit

On-site fingerprint development across diverse evidence types, including keys, bottles, tools, and metallic objects.

NINHYDRIN & DFO Fuming Chamber

Controlled development of fingerprints on porous surfaces and documents with real-time process monitoring.

Dry-Safe Evidence Cabinet

Filtered drying and contamination-controlled storage of forensic evidence prior to examination.

Swab-Dryer Evidence Cabinet

Efficient drying and preservation of biological swabs while maintaining evidence integrity and reducing contamination risks.

Powered by Kwick Forensics | 100% Made in India | Crime Scene → Court Documentation

Secure, tamper-proof digital ecosystem enabling law enforcement agencies to digitally record, manage, and transfer evidence with complete transparency, integrity, and legal compliance—designed for simplicity, speed, and operational efficiency.

Key Modules

Evidence Integrity Management

Digital chain-of-custody for end-to-end evidence tracking

3D Crime Scene Solutions

Scene sketching and scientific reconstruction

Legal Reference Tools

Instant access to BNSS provisions, forms and legal references

INDUSTRY OVERVIEW

Government-Led Investments Driving Forensic Sector Growth

India's digital forensics market is projected to grow from **\$0.19 billion (₹1,603 crore)** in 2024 to **\$1.39 billion (₹11,829 crore)** by 2030.

A **robust CAGR of ~40%**, driven by rising cybercrime, tighter regulatory requirements, and accelerating digital transformation across industries.

CFSL - Central Forensic Science Laboratories,
NFSU - National Forensic Sciences University

Forensic investigation has been made mandatory for offences punishable with imprisonment of seven years or more.

Digital and electronic evidence has been clearly defined and recognized as legally admissible in court proceedings.

The chain of custody framework has been strengthened, with videography of search and seizure operations now mandatory.

With 103 MoUs signed across 96 countries, NFSU is fostering global collaboration, accelerating forensic innovation, and unlocking new growth avenues for the industry.

The number of mobile forensic laboratories has expanded from virtually none in 2021 to over 1,000 today.

The provision of Trial in Absentia has been introduced to address cases involving absconding accused persons.

e-FIR and Zero FIR provisions have enhanced accessibility to justice, particularly for women and vulnerable sections of society.

A dedicated Modus Operandi Bureau is being established to strengthen crime mapping and criminal intelligence capabilities.

A blurred background image of a business meeting. Several people are seated around a table, looking at and pointing to various documents and papers. The documents feature various financial charts, including line graphs, bar charts, and pie charts. One person in the foreground is holding a pen over a document. The overall scene suggests a collaborative work environment focused on financial analysis.
